### DIY WOODWORKING PROJECTS: CUSTOM PLAQUES WITH ANTIQUE FINISHING

W • Feb 6 – Mar 13 • 6 – 8:30 p.m.  
Canyon 133 • Instructor: Jessica Larsen  
Fee: \$80 + \$22 supply fee paid to the  
instructor

If you have ever been interested in wood-  
working and are looking for a great place to  
start, this is it. In DIY Woodworking Projects,  
you will start with a blank slab of wood and  
then transform it into something special using  
a variety of different antiquing and distressing  
techniques. Familiarize yourself with differ-  
ent pieces of woodshop equipment and learn  
how to use them safely. Begin by choosing  
one of five custom sign design projects and  
then complete your sign by learning how  
to build frames and distress it using chisels,  
scrapers, and worm holing. Additional ac-  
tivities will include: staining, painting, chalk  
painting, glazing, and various finishes. Leave  
class with a handy new skill set as well as a  
new one-of-a-kind sign to take home.

### WOODWORKING

During the course we will cover finding and preparing to write a winning grant proposal, writing grant proposals that reviewers want to fund, and knowing what to do before and after your proposal is funded. Attendees will walk away with answers to questions like these: "Where can I find money for myself, my company, or my organization?", "How does the grant process really work?", and "What can grant money be used for and what are the grant funders really looking for?". Additionally, a significant portion of the time will be available for attendees to ask and receive answers to questions that are specific to them, their organizations, and their funding needs. Instructors Justin Vipperman and Matthew English bring an extensive history of more than 20 years' experience working with grants, government and public agencies, educational institutions, and non-profit organizations. Both are currently employed as full-time grant professionals in the Magic Valley community.

### **GRANT WRITING 101 FOR HEALTHCARE PROFESSIONALS**

**S • Feb 9 • 10 a.m. – 12 p.m.**

**Shields 102**

**Instructor: J. Vipperman and M. English**

**Fee: \$50**

The one day, two-hour course is focused on enhancing the skill set of both beginning and experienced healthcare specific grant writers. During the course we will cover finding and preparing to write a winning grant proposal,

writing grant proposals that reviewers want to fund, and knowing what to do before and after your proposal is funded. Attendees will walk away with answers to questions like these: "Where can I find money for my company, or my organization?", "How does the grant process work?", and "What can grant money be used for and what are the grant funders really looking for?". Additionally, a significant portion of the time will be available for attendees to ask and receive answers to questions that are specific to them, their organizations, and their funding needs. Instructors Justin Vipperman and Matthew English bring an extensive history of more than 20 years' experience working with grants, government and public agencies, educational institutions, and non-profit organizations. Both are currently employed as full-time grant professionals in the Magic Valley community.

### **WORDPRESS**

**W • Mar 20 – Apr 10 • 6 - 8 p.m.**

**Shields 101 • Instructor: Sandy March**

**Fee: \$129**

Learn how to create attractive websites—without any coding! WordPress is the world's most popular website publisher, powering more than 25% of all sites on the Internet. WordPress is an easy-to-use solution that will help you put your site on the Web in far less time than by coding, and at a much lower cost than hiring a professional. In these lessons, you'll get hands-on experience with this powerful tool as you create your own WordPress site. You'll find out how to use WordPress to create pages and posts, add images and videos, change a site's look and feel, and include user-friendly features. You'll discover the ease of using WordPress design themes to express your creativity. By the end of this course, you'll be able to confidently use WordPress to create a personal, business, or organizational website. You will also gain knowledge for creating a blog within the website. WordPress covered in this class is the platform the pros use. While it normally requires a paid hosting account, this course includes a totally free, no obligation GoDaddy hosting account for two months so you can see your results instantly and practice. Your Instructor Sandy March has over 30 years in multiple IT areas including IT Server & Network Management, Web Design, Social Media Marketing and Graphics work.

## **YES, YOU CAN WRITE A BOOK IN AN AFTERNOON!**

**S • Mar 9 • 1 - 5 p.m.**

**Shields 103 • Instructor: Cindy Bezas**

**Fee: \$67 + \$15 paid to the instructor**

If you are a business owner, executive, multi-level marketer, or entrepreneur of any kind, how do you become known as the expert in your field? Through writing a book. Before you laugh at the thought of you writing a book, this class will show you how you can create an ebook for your field in one afternoon. The instruction will help you with a simple framework—even if you believe you can't brilliantly string two words together. In four hours, you will have dialed in your power-topic, organized the wealth of information you have, and have brought together an ebook of inspiration for others in your field. With your efforts by the end of class, you will have a draft ready for editing and eventual publication. Additional resources will be given to help you bring it to completion and publication on Amazon. You then can be known as a published author and expert in your field! Cindy Sue Bezas, M.S., has been published in books and articles, has spoken at national writing conferences, served as a board member on various national conference committees, and coached private clients in writing. She loves helping executives become known for their expertise.

Karate is an excellent way to help develop coordination, confidence, physical fitness, and mental strength while gaining valuable social skills. Advanced students, who must be members of SKA association, will get a chance to learn additional techniques, attend meets and special events, and be taught by guest instructors. Shotokan Karate of America (SKA) has been teaching traditional Karate in the USA since 1955. SKA was founded by Tsutomu Ohshima, who was one of Master Funakoshi's last direct pupils, studying under him while attending Waseda University in Tokyo, Japan. Because of SKA's strong resolve to offer high-quality martial arts to the public, SKA has remained non-commercial and non-profit and continues to offer au-

thentic, traditional martial arts instruction at affordable rates through more than 140 dojos across the United States and Canada with affiliates worldwide. Mr. Ohshima granted instructor Jesse Clark permission to instruct SKA in Twin Falls in 2011. Jesse Clark, sandan (3rd degree black belt), is the CSI head Karate and self-defense instructor for CSI. Jesse fought for the USA Team in France in 2014 and in Switzerland in 2017. Learn more at [twinfalls.ska.org](http://twinfalls.ska.org)

## Hundreds of Titles to Choose From!

### Discover Sign Language

It's truly amazing that we can communicate just by using our hands! Add different facial expressions, and you have a conversation—the language used by Deaf people. In this course, you'll discover how to use this graceful, expressive language to communicate. You'll begin with an introduction to the language itself, and learn to create the signs for numbers. You'll also master the sign alphabet so you can fingerspell proper names. Then you'll learn to sign phrases and expand to complete sentences, and see how to put it all together so you can introduce yourself and start a conversation. Along the way you'll learn signs for colors, numbers, where you live, family, and the activities you like to do and even the ones you don't.

### Certificate in Mindfulness

Mindfulness is a state of active, open attention on the present moment. When you are mindful, you observe your thoughts and feelings without judging them. Today, more and more healthcare practitioners are seeing the benefits of incorporating mindfulness in to their treatments and teaching others in all backgrounds about this valuable practice. In this certificate program, you'll examine the many benefits of mindfulness for both your personal and professional life. You'll also lay the foundation for a career in health and wellness coaching. The program explores a variety of widely-recognized healing interventions that incorporate mindfulness, including Mindfulness-Based Stress Reduction and Mindfulness-Based Cognitive Therapy.

### Introduction to Guitar

Learn to play guitar, and become the musician you've always wanted to be! In these fun and informative lessons, you'll build basic guitar skills step-by-step with the help of hands-on exercises, audio and video recordings, and detailed illustrations. First, you'll get to know all the parts of your guitar, from frets to strings, and learn how to tune your instrument. After that, you'll explore the fundamentals of music notation and find out how to produce clear, beautiful notes and chords. You'll also discover how to control your rhythm,

tempo, and volume, and how to express yourself artistically. The classical guitar skills you'll master in this course will allow you to play any style of music, from hard rock to country-and-western.

### Luscious, Low-Fat, Lightning-Quick Meals

Have you ever wished you had a personal chef preparing luscious, low-fat meals for you? This course is the next best thing! You'll learn how to reduce fat in recipes without sacrificing flavor or texture. Explore how to use flavor profiling to expand your culinary horizons. Learn how to prepare casseroles, crock-pot dishes, vegan dishes, oven-fried foods, meat-based meals, and many other entrees that are both nutritious and delicious! You'll discover how to get in and out of the kitchen faster, including tips for grocery shopping, menu planning, food preparation, and quicker cooking. You'll also learn a dietitian's tricks of the trade for encouraging reluctant family members to eat more healthfully. You'll have the chance to try out over 50 exciting and easy lowered-fat recipes for tasty entrees, side dishes, desserts, and garnishes, with each recipe demonstrating a topic that's covered in the lessons.

### Wow, What a Great Event!

Are you planning a special event and could use some helpful advice? Considering event planning as a future career? Curious about what other event planners are doing? Need new ideas and resources? Wow, What a Great Event! is an event planning course that's made for you. This course reveals how all the pieces in the event planning process fit together to make any size or type of event successful, whether it's for your family or friends, your employer, or your favorite charity. It helps you avoid common pitfalls, embarrassing errors, and costly mistakes. It provides you with a solid educational foundation in event planning that will impress your current boss or future employers. And if you're a very experienced planner just looking for a few ideas, it presents you with exceptional resources you probably didn't know existed and can use in your own business.

Jerome Fairgrounds Beef Barn

Instructor: Brittany Triner

Fee: \$65

Get into the action! Agility is an exciting sport where dog and handler navigate their way through a series of obstacles competing for time and accuracy. This 5-week introductory class will introduce dogs and handlers to the rules of AKC agility competition. You and your dog will get on the course, learning how to navigate all the obstacles from jumps and tunnels to contact obstacles. Agility is suitable for any breed of dog that would love to get out and get active with its owner in a fun and challenging learning environment. Dogs should know basic commands of sit, down, and stay.

### DOG BARN HUNT

M • Apr 1 - 22 • 7 - 8 p.m.

Jerome Fairgrounds Beef Barn

Instructor: Brittany Triner

Fee: \$55

Barn Hunt is a new and exciting sport gaining popularity across the country! This sport was created around a dog's natural love for hunting vermin and has become both a safe and exciting challenge for dog, handler and spectators alike. Owners will enjoy watching their dogs use their natural skills to climb straw stacks and burrow tunnels in the search for a RAT! Rats are kept safe in tubes allowing dogs to use their sense of smell to sniff out the

hidden rodent. This 2-week introductory class will introduce owners to the rules of the sport while giving dogs access to the Barn Hunt arena. Dogs must have completed a prior basic obedience class or know the commands: sit, wait, come and stay.

### **CONFINED SPACE COMPETENT PERSON**

**Thursday • Feb 21st • 9 a.m. - 4 p.m.**  
**ATIC 134 • Instructor: Davy Gadd**  
**Fee: \$165**

A competent person is a necessity on every job site and is someone who has sufficient experience and knowledge to recognize confined space hazards, correct unsafe work conditions, and who has the ability to shut down the worksite until any hazards are corrected. The competent person should be the most knowledgeable person, in this case about confined space safety on site. Confined spaces incidents are not the most common, but they can be the most deadly. Many times this is due to the hazards being misunderstood or underestimated. This course is designed to train students in the best practices and methods of identifying and eliminating both existing and predictable confined space hazards.

### **CODE APPLICATION FOR MOTOR CONTROLS**

**Thursday • Feb. 28th • 8 a.m. – 5 p.m.**  
**HSHS 151 • Instructor: Jake Ball**  
**Fee: \$245**

Every three years the National Electrical code is revised and new code changes are adopted by the States. In Idaho, each Master and Journeyman electrician must have 8 hours of continuing education and 16 hours of code update to renew their licenses. This Code Update course is designed to familiarize electricians and electrical contractors with the most important changes in the NEC through hands-on learning. This course will provide participants with the opportunity to design, build, test, and troubleshoot control

circuits using various motor starters, signaling devices, switches, relays, timers and other associated equipment. You will also learn the basics of variable frequency drives including wiring, configuration, and troubleshooting.

### **EXCEL – SESSION 1: 101**

**Thursday • Feb 28th • 3 p.m. – 5 p.m.**  
**HSHS 229 • Instructor: Julia Rietdorf**  
**Fee: \$60**

This course will introduce you to Excel where you will work along with the instructor to create basic spreadsheets. Then to enhance the look and readability of the spreadsheet you created – you will learn to apply basic formatting techniques. Excel is a program that will happily “do Math” and you will discover how to create and use basic formulas and functions. To increase your efficiency with this program, key navigation and selection techniques will be demonstrated.

### **EXCEL – SESSIONS 1-5**

**Thursdays • Feb. 28th - March 28th**  
**3 p.m. – 5 p.m.**  
**HSHS 229 • Instructor: Julia Rietdorf**  
**Fee: \$250**

This course will start you will at creation of basic spreadsheets and enhancing look and readability of those spreadsheets to teaching the most common and useful formulas and functions. Then training will take you to charting features and the most common charts including mini Sparkline charts and conditional formatting. Moving to the next level work alongside the instructor to discover how to manipulate data and quickly extract data while discovering the subtotal command and creation of structured tables. Finally you will learn how to create a pivot table and analyze large sets of data then present your data pictorially with the use of a pivot chart.

## DEVELOPMENT & TRAINING

### **LOCKOUT/TAGOUT**

**Tuesday • March 5th • 9 a.m. – 1 p.m.**  
**ATIC 134 • Instructor: Davy Gadd**  
**Fee: \$95**

Lockout/Tagout is one of the most serious and most often cited violations. Learn how to protect workers from potentially fatal accidents. Let our safety experts break down the OSHA regulations and teach proper lockout/tagout equipment procedures, required lockout/tagout devices, hazardous energy sources, injury prevention, and legislative requirements. Our workforce safety experts will guide you through interactive discussions paired with activities in our lab relating to the OSHA lockout/tagout regulations.

### **HR SERIES: SESSION 3**

**Thursday • March 7th • 3 p.m. – 5 p.m.**  
**HSHS 150 • Instructor: Mark Stevens**  
**Fee: \$75**

In today's complex and ever changing workplace, continuously developing skills matter. There is an opportunity for everyone to be a leader and positively influence workplace culture. Attend our Human Resources Series, session 3 and develop skills for a changing workplace while earning SHRM/HRCI credits. In this class, students will learn how to deal with conflict with their employees and how to manage the disciplinary or corrective action process. Problems can arise in employment – if they are addressed properly, taking formal steps can solve employment problems and get employees back on track. Lastly, when dialogue breaks down, students will learn how to identify and manage the roots of conflict and work towards healthy solutions.

### **EXCEL – SESSION 2: TOP 15 FUNCTIONS**

**Thursday • March 7th • 3 p.m. – 5 p.m.**  
**HSHS 229 • Instructor: Julia Rietdorf**  
**Fee: \$60**

This course will improve your ability to analyze and summarize data in Excel by teaching you the most common and useful formulas and functions. You will work along with the instructor to review basic formulas using absolute and relative references and the order of operations. Then you will learn how to find and unlock the power of functions in Excel. Although there are over 400 functions in Excel, you will learn to use the 15 most common and useful date, logical, reference, and financial functions.

### **AERIAL & SCISSOR LIFT OPERATOR**

**Friday • March 8th • 9 a.m. - 4 p.m.**  
**ATIC 134 • Instructor: Davy Gadd**  
**Fee: \$199**

This 1-day certification course will educate individuals in the safe operation of scissor and aerial lifts per OSHA and ANSI standards. Participants will receive both classroom training along with hands on operation of scissor and aerial lifts.

### **AERIAL & SCISSOR LIFT TRAIN THE TRAINER**

**Friday • March 8th • 9 a.m. - 4 p.m.**  
**ATIC 134 • Instructor: Davy Gadd**  
**Fee: \$750**

This 1-day certification course is designed to provide candidate instructors with the skills and knowledge to teach an effective aerial and scissor lift operator course and evaluate compliance. Participants will learn the instructional techniques involved to best deliver concepts in a classroom and/or field environment.

### **EXCEL – SESSION 3: CHARTING AND CONDITIONAL FORMATTING**

**Thursday • March 14th • 3 p.m. – 5 p.m.**  
**HSHS 229 • Instructor: Julia Rietdorf**  
**Fee: \$60**

Many people do not take advantage of the powerful charting features available in Excel. Make your data easier to understand by using the most common charts in Excel – the Pie, Column, and Line Charts. There are also mini charts now available called Sparklines, which you will create by working alongside the instructor. Another way to highlight data in Excel is Conditional Formatting. You will discover how to showcase data by applying colors, formatting, and icons when certain conditions are met.

### **AC/DC ELECTRICAL – LEVEL 3: ADVANCED**

**Saturdays • March 16th – March 23rd • 1 p.m. – 5:30 p.m.**  
**ATIC 134 • Instructor: Ben Hamlett**  
**Fee: \$275**

This course will provide participants with AC/DC Electrical circuits and PLC Troubleshooting skills. This includes schematics, sensors, meter usage, and motors. Students will be immersed in practical, real world examples that illustrate how electricity is distributed and used in their plants and facilities. Applied learning will include testing and/or troubleshooting various motor faults and troubleshooting a circuit given a complex schematic.

### **HR SERIES: SESSION 4**

**Thursday • March 21st • 3 p.m. – 4:30 p.m.**  
**HSHS 150 • Instructor: Mark Stevens**  
**Fee: \$75**

In today's complex and ever changing workplace, continuously developing skills matter. There is an opportunity for everyone to be a leader and positively influence workplace culture. Attend our Human Resources Series, session 4 and develop skills for a changing workplace while earning SHRM/HRCI credits. In this class, students will learn how being a better "leader" is critical to being a better supervisor. The class will center on two concepts; relationship management and results management and how the two concepts need to work together. Using this "base", students will learn how this mindset will help with supervisory practices, such as hiring, coaching, and corrective action.

### **EXCEL – SESSION 4: GET RESULTS FROM DATA**

**Thursday • March 21st • 3 p.m. – 5 p.m.**  
**HSHS 229 • Instructor: Julia Rietdorf**  
**Fee: \$60**

This course will improve your ability to manipulate data and quickly, extract the data and answers you need from your dataset. Start by working alongside the instructor to discover the Subtotal command which will help you easily summarize your data. Then learn to create a Structured Table in Excel. These tables provide 5 great benefits for data analysis: 1. Structured Formula References, 2. Autofill Formulas, 3. Quick Summation using the Total Row, 4. Sort and Filter Capabilities, and 5. Enhanced Formatting.

### **EXCEL – SESSION 5: PIVOT TABLES AND PIVOT CHARTS**

**Thursday • March 28th • 3 p.m. – 5 p.m.**  
**HSHS 229 • Instructor: Julia Rietdorf**  
**Fee: \$60**

Have you heard of a Pivot Table, but are not sure how to create one? If so, work alongside the instructor in this course to create and use a Pivot Table, one of Excel's most powerful features. Analyze large sets of data quickly and easily by using slicers and datelines. Then present your data pictorially by learning how to create and use a Pivot Chart.

### **NFPA 70E ELECTRICAL TRAINING**

**Thursday • March 28th • 8 a.m. – 5 p.m.**  
**HSHS 151 • Instructor: Jake Ball**  
**Fee: \$499**

This course will equip participants with knowledge and practical skills to help keep themselves and others safe in an industrial environment where electrical hazards could exist. It is ideal for any individual who works on or around electrical equipment or for those who oversee these personnel. Completion of this course will establish employees as "Qualified Persons" under OSHA and NFPA standards. Licensed electricians will qualify for 8 hours of industry related CEU credits through the Idaho Division of Building Safety.

## THE SECOND COMING OF JOAN OF ARC

**April 18, 2019 @ 7:30 p.m** She led an army to victory, crowned a king, took on the entire Catholic Church... and was dead by 19. Joan of Arc is the MOST documented figure of the 15th century, and yet myths about her pervade the history books, to this day. In *The Second Coming of Joan of Arc*, by Carolyn Gage, the audience will discover the real Jeanne Romee, and through her story, the brutal institutional misogyny that women continue to face. Drawn from the detailed records of her two trials—including hundreds of testimonies by all involved in her short life—*The Second Coming* finally tells the truth about the simple-minded, virginal peasant girl, who was anything but. Jennifer Miller performs this one-woman show that explores not only the experience of "Joan of Arc," but relates that experience to contemporary women. Join her and discover the defiant, irreverent, clever, and unrepentant Jeanne, who remained unfailingly true to her own visions.
