**Times: 9 a.m. – 5 p.m.**

**Fee: \$225 or \$275 after May 18**

**Location: CSI Fine Arts Center**

Do you love music? No matter your experience level, CSI MUSICFEST is the place for you! This week-long summer camp on the beautiful College of Southern

Idaho campus provides opportunities for you to be immersed in music making. Focused study is available in strings, woodwinds, brass, percussion, piano, jazz, and voice. The daily schedule includes seven hours of hands-on instruction laid out to engage students thoroughly from beginning to end. Exceptional faculty from across the state work closely with you in small and large ensemble settings, as well as in daily master classes and sectionals. Listening labs brings theory and history of music to life! Each afternoon, students have the chance to shine alongside faculty mentors at the camp's performance spotlight. Private lessons and a range of elective areas are available to round out the camp experience. The week's learning culminates with student recitals, showcases, and mainstage concerts for friends, family, and community to enjoy. CSI MUSICFEST promises to be an unforgettable experience where students build life-long friendships through the power of music making!

Camp Masterpiece is the College of Southern Idaho's summer art camp. In Camp Masterpiece, young artists will discover a world of inspiration and creativity through open-ended, age-appropriate art lessons in drawing, painting, and sculpture. We will explore different media working on these projects as students learn various art techniques. Better yet, in this camp, visual and performing arts are combined with play, games and a snack, and the week will culminate in an art show for both age groups and a performance by the younger students for their performance. A Camp Masterpiece apron is included.

## **CSI THEATRE CAMP**

**Ages: 10 – 18**

**Dates: June 21 – 25, 2022(\*)**

**Times: 9 a.m. – 5 p.m.**

**Fee: \$215 or \$240 after June 7**

**Location: CSI Fine Arts Center**

At CSI Theater Camp, students will have the opportunity to expand their skills in everything from acting and musical theater to set design and costuming in a fun and immersive environment! The camp features an impressive guest faculty of theater professionals from all over the country who bring a wealth of talent and knowledge to assure each student achieves their highest potential. Students will choose from different tracks, ranging from classes designed for younger students who don't have theater experience to advanced classes geared toward older students who have studied theater or have been in productions who would like to expand their knowledge and skills through a more challenging curriculum. Classes taught by working theater professionals (many of whom had their start right here in the Magic Valley!) include, but are not limited to: acting, auditioning skills, musical theater, choreography, vocal development, make-up, costuming, set design, lighting, and prop construction. Each day will end with a rehearsal for the end-of-camp show which will be performed Friday night for friends and family! This special production will build on the skills the campers learned in their classes throughout the week and give them a chance to shine on the stage. Camp Directors Shane Brown and James Haycock have more than 45 years' experience teaching and working in theater and run the CSI and Twin Falls High School Theater Programs.

**Location: Shields 106**

Finally! A chance for students to have fun while developing writing skills and not worry about grades! In this one-week summer camp students will dive into multiple types of writing including fiction, creative non-fiction, poetry, and free writing styles. Students will learn about the elements of a story and the writing process and

work to create a final product they can take home and share with friends and family. Each day students will do different freewriting exercises to develop their writing and focus on the process of bringing their ideas to life on the page. Students grades 3-6 will create and publish a story using their own ideas, writing, and artwork. Older students (grades 7-12) will gather the writing they produce during the camp to create an anthology of the work of the entire class. The focus will be on fun, creativity, and enjoying writing again!

### **JUST DANCE FOR JUNIORS**

**Times: 9 – 12 p.m. or 1-4 p.m. either day**

In Little Robotitions Robotics Camp, younger students will learn new skills in science, engineering, technology, and coding using the LEGO WeDo 2.0 robotics kits and software. In this camp, students learn the important 21st century skill of programming the intuitive way – by bringing their adorable creations to life. What parents love, and the students don't realize, is they are also sharpening computational thinking skills like logical reasoning, pattern recognition, and modeling simulations. In Little Robotitions Robotics Camp, children are empowered to ask the right questions, define problems, and design their own solutions by putting scientific discovery in their own hands. They'll also learn gracious professionalism from the valley's own award-winning 5026 Tesla Coils FTC Robotics Team. Class sizes are limited to 10 kids per session.

### **ADVANCED LITTLE ROBOTITIONS CAMP**

**Ages: 6-8**

**Dates: August 9-10 or August 11-12, 2022**

**Times: 9 – 11 a.m.**

**Fee: \$70**

**Location: CSI Fine Arts 164**

**REQUIREMENT FOR PARTICIPATION IN THE ADVANCED LITTLE ROBOTITIONS CAMP - COMPLETION OF THE BASIC LITTLE ROBOTITIONS CAMP IN 2019 OR 2020.** In

the ADVANCED Little Robotitions Robotics Camp, younger students will learn how to apply their new skills in science, engineering, technology, and coding using the LEGO WeDo 2.0 robotics kits and software. In this camp, students will apply the important 21st century skill of programming the intuitive way – by bringing their adorable creations to life. They will complete "fill in the blank" robot design & programming projects, expanding & solidifying what they learned in their Basic Little Robotitions Camp. What parents love, and the students don't realize, is they are also sharpening computational thinking skills like logical reasoning, pattern recognition, and modeling simulations. In the Advanced Little Robotitions Robotics Camp, children are empowered to ask the right questions, define problems, and design their own solutions by putting scientific discovery in their own hands. They'll also learn gracious professionalism from the valley's own award-winning 5026 Tesla Coils FTC Robotics Team. Class sizes are limited to 10 kids per session.

### **BASIC EV3 ROBOTICS CAMP**

**Ages: 9 - 14**

**Dates: August 3-5, 2022**

**Times: 12:30 – 4 p.m.**

**Fee: \$105**

**Location: CSI Fine Arts 164**

Design, build, and program a LEGO EV3 robot that will crush the competition in a fun, end-of-camp contest. This Beginner EV3 Robotics camp is open to all boys and girls interested in applying science, technology,

engineering, and math while learning real-world problem solving skills and gracious professionalism from the valley's own award-winning 5026 Tesla Coils FTC Robotics Team. Space is limited to the first 24 registrations.

### **ADVANCED EV3 ROBOTICS CAMP**

**Ages: 9 - 14**

**Dates: August 10-12, 2022**

**Times: 12:30 – 4 p.m.**

**Fee: \$155**

**Location: CSI Fine Arts 164**

**REQUIREMENT FOR PARTICIPATION IN THE ADVANCED LITTLE ROBOTITIONS CAMP - COMPLETION OF THE BASIC LITTLE ROBOTITIONS CAMP IN 2020 OR 2021.** In the

Advanced EV3 Robotics Camp, students will use LEGO MINDSTORM EV3 robotics kits to design and

build programmable robots using motors, sensors, gears, wheels, axles, and other technical components. They will learn how to understand and interpret two-dimensional drawings to create three-dimensional models and gain practical, hands-on experience using mathematical concepts such as estimating and measuring distance, time, and speed. They'll learn gracious professionalism from the valley's own award-winning 5026 Tesla Coils FTC Robotics Team. Space is limited to the first 20 registrations.

**Important: This class is ONLY for students who've taken the BASIC EV3 ROBOTICS CAMP during the summer of 2020 OR 2021 from the 5026 Tesla Coils. Please contact the camp director with any questions about eligibility for this ADVANCED camp.**

**Instructor: Jesse Clark**

Karate is an excellent way to help develop coordination, confidence, physical fitness, and mental strength while gaining valuable social skills. Advanced students, who must be members of SKA association, will get a chance to learn additional techniques, attend meets and special events, and be taught by guest instructors. Shotokan Karate of America (SKA) has been teaching traditional Karate in the USA since 1955. SKA was founded by Tsutomu Ohshima, who was one of Master Funakoshi's last direct pupils, studying under him while attending Waseda University in Tokyo, Japan. Because of SKA's strong resolve to offer high-quality martial arts to the public, SKA has remained non-commercial and non-profit and continues to offer authentic, traditional martial arts instruction at affordable rates through more than 140 dojos across the United States and Canada with affiliates worldwide. Mr. Ohshima granted instructor Jesse Clark permission to instruct SKA in Twin Falls in 2011. Jesse Clark, sandan (3rd degree black belt), is the CSI head Karate and self-defense instructor for CSI. Jesse fought for the USA Team in France in 2014 and in Switzerland in 2017. Learn more at [twinfalls.ska.org](http://twinfalls.ska.org)

### **KARATE FAMILY DISCOUNT!**

### **INTRO TO WELDING & METAL ART**

**Dates: June 16 – August 25**

**Days: Wednesdays**

**Fee: \$250 + \$25 to instructor for gloves and mask**

**Location: Desert 105**

**Instructor: Jenn Crowdson**

Explore the technology of metal fabrication and welding to create a metal piece that will become something beautiful and durable... or just to brush up on your skills and work on a specific project or art piece! During this hands-on course, students will be introduced to shop safety, two welding processes (arc welding and mig welding), grinding, different methods of metal cutting (plasma, oxy/fuel torch, cold saw, and disk cutting), and a variety of metal coloring techniques (paint, chemical, heat coloring) to create a finished project to take home at the end of the semester. Students need to come dressed in clothes appropriate for welding such as jeans, leather shoes/boots, and long-sleeved shirts of canvas or cotton. Loaner welding helmets, safety glasses, ear plugs, respirators, leather jackets, and gloves will be loaned to students if needed. The class is limited to 10 people and normally fills – early registration is suggested.

### **BOTANY FOR BEGINNERS**

**Dates: June 7, 8, and 9**

**Days: Tuesday, Wednesday, and Thursday**

**Time: 6 – 8 p.m.**

**Fee: \$75**

**Location: Shields 102**

**Instructor: Don Morishita**

Have you ever wondered what the weed or plant growing in your yard or that you see while out hiking is? Or, have you thumbed through hundreds of pages of a plant identification book looking for a photo that looks like what you have? In this class you will learn about basic plant characteristics and anatomy and then how use this information to recognize plants and plant families. Some handouts will be provided. The book "Botany in a Day" is recommended, but not required.
