Safety Protocol for Fall 2020 Semester

The College of Southern Idaho welcomes its students back to campus this fall with programs designed to keep students safe and on track to reach their academic and personal goals. To accomplish these goals, there will need to be some modifications to ensure the safety of students and faculty.

All students and teachers are required to wear masks during fall classes, which includes these enrichment courses, so bring and wear your mask to class in addition to washing your hands, staying home if you are sick, etc. Also, be aware of social distancing so just **keep up the practice of staying/sitting six feet away from other students and teachers**, which means empty seats between students.

Our CSI maintenance crew is working double time cleaning and disinfecting classrooms. In response to COVID-19, buildings have been adjusted to bring in more than the minimum required fresh outside air. Filters are replaced on a regular schedule which varies depending on the type of system and type of building occupancy. We are upgrading to filters that will capture 80%-90% of particles in the air. Viruses are too small to be captured by filters, but the filters capture particles and water droplets that harbor viruses.

Faculty may require students to follow additional safety procedures and use additional personal protection gear as necessary, especially in classes where hands-on instruction is required. This will be the case in such classes as Pottery. You will receive additional information after registration for these classes.

Please treat everyone with respect and kindness recognizing that everyone is doing the best they can in extraordinary circumstances.

I think together we can pull off a fairly safe and super fun fall semester! Please let me know if you have any questions.

HYPNOSIS FOR A GENTLE BIRTHING

Th • Oct 1 – 22 • 6 – 9 p.m.

Shields 108 • Instructor: Jennetta Billhimer

Fee: \$350 + \$20/text paid to instructor

Hypnobirthing mania has spread across the country--and with very good reasons! Although the goal of the program is not to make labor “pain free”, many women have reported having a totally pain-free births. Mothers are awake and aware during labor - they can talk, they can think, they can move, and they are full participants in their own births - they are just very relaxed during surgeries. They have learned how to do this through specially-designed techniques they’ve been taught in class. Just a few of the benefits being experienced by hypnobirthing families are shorter labors, no frenzied pushing stage, being able to bond after the birth as a family without exhaustion for either the mother or the baby, a quicker recovery, less postpartum depression, greater breastfeeding success, and babies with higher Apgar scores. Self-hypnosis is very effective and can easily be used by almost everyone. In this course you will be using the book *Wise Childbearing, What You Will Want to Know as You Make Your Birth Choices*. Bonuses include the video “7 Tips for a Birth You Will Be Ecstatic Over” and so much more! Jennetta Billhimer is the director of Association for Wise Childbearing. She has been a birth doula and childbirth educator since 1996 and has assisted many women/families in preparing for gentle, calm, and joyful births.
