CAMP MASTERPIECE

In Camp Masterpiece, young artists will discover a world of inspiration and creativity through open-ended, age-appropriate art lessons in drawing, painting, and sculpture. We will explore different media working on these projects as students learn various art techniques. Parents will enjoy the Camp Masterpiece art exhibition.

Grades 1-8 • June 14-18 or 21-25 • 9-11:30 a.m. • \$135

CSI JUNIOR THEATRE CAMP

Junior Theater Camp will introduce younger students to the world of theatre - no experience required! Campers will learn about the concepts of drama through games and storytelling as well as the basics of what goes into a play - who does what, direction, how to express emotions through performing, stage voice, and movement.

Ages 6-9 • June 28-30 • 1-5 p.m. • \$65

BASIC EV3 ROBOTICS CAMP

Design, build, and program a LEGO EV3 robot that will crush the competition in a fun, end-of-camp contest. This camp is open to all boys and girls interested in applying science, technology, engineering, and math while learning real-world problem solving skills and gracious professionalism from the valley's own award-winning 5026 Tesla Coils FTC Robotics Team.

Ages 9-14 • August 4-6 • 12:30-4 p.m. • \$105

CSI KITCHEN ACADEMY

Calling all Junior Chefs! CSI Kitchen Academy focuses on providing a positive learning environment that includes kitchen safety, knife skills, proper food handling, food preparation, manners, table settings, food presentation and of course, math and fun. Come join us for a great experience cooking from scratch to consumption!

Ages 9-12 • 9 a.m.-12 p.m. or 2-5 p.m. • \$149

Classic American Cuisine (June 14-18)

Pork Tenderloin Wellington, Chicken Parmesan, Beef Stroganoff, Chicken Cordon Bleu and Fifties Style Swiss Steak.

Retro Desserts (July 12-16)

Black Forest Cake, Peach and Blackberry Pavlovas, Strawberry Shortcake, Baked Alaska, Cherry Gelatin Supreme and Traditional Apple Strudel.

CSI SCIENCE CAMP-STEM OLYMPICS

Are you a young Einstein? Like to design like Leonardo Da Vinci? Curious like Marie Curie? Get ready for the 2021 Summer Olympics with Science, Technology, Engineering, Math, and more! Research interesting topics, test hypotheses, participate in fun, hands-on activities, and conduct cool experiments all while having Olympic stadium-sized fun. When you enroll, please register in the grade you will be attending this fall.

Grades K-7 • July 26-30 • 9-11:30 a.m. • \$80

ADVANCED EV3 ROBOTICS CAMP

In the Advanced EV3 Robotics Camp, students who have had the basic camp will use LEGO MINDSTORM EV3 robotics kits to design and build programmable robots using motors, sensors, gears, wheels, axles, and other technical components. They will learn how to understand and interpret two-dimensional drawings to create three-dimensional models and gain practical, hands-on experience using mathematical concepts such as estimating and measuring distance, time, & speed.

Ages 9-14 • August 11-13 • 12:30-4 p.m. • \$155

LITTLE ROBOTITIONS ROBOTICS CAMP

In Little Robotitions, students will learn science, engineering, technology, and coding using the LEGO WeDo 2.0 robotics kits and software. They will learn the important 21st century skill of programming the intuitive way - by bringing their adorable creations to life as they are empowered to ask the right questions, define problems, and design their own solutions by putting scientific discovery in their own hands.

Ages 6-8 • August 3-4 or 5-6 • 9-11 a.m. • \$55

NUTS, BOLTS, & THINGAMAJIGS SUMMER CAMP

Experience modern manufacturing by creating and building products to take and use at home. At camp, you will virtually tour manufacturing facilities, learn about entrepreneurship and meet top industry experts. Campers will experience a safe, hands-on learning environment creating products with Computer-Aided Design (CAD), operating machinery under close supervision, and discover their future career in manufacturing.

Ages 12-17 • June 14-18 • 9 a.m. - 3 p.m. • \$75

CSI THEATRE CAMP

At CSI Theater Camp, students from beginner to advanced will have the opportunity to expand their skills in areas such as acting, musical theater, choreography, vocal development, make-up, costuming, set design, lighting, and prop construction in a fun and immersive environment. Each day will end with a rehearsal for the end-of-camp show which will be performed Friday night for friends and family!

Ages 10-18 • June 21-25 • 9 a.m.-5 p.m.
\$215 or \$240 after June 7

ADVANCED LITTLE ROBOTITIONS CAMP

In this camp, students will complete "fill in the blank" robot design & programming projects, expanding & solidifying what they learned in their Basic Little Robotitions Camp. What parents love, and the students don't realize, is they are also sharpening computational thinking skills like logical reasoning, pattern recognition, and modeling simulations.

Ages 6-8 • August 10-11 or 12-13 • 9-11 a.m. • \$70

YOUTH KARATE

Twin Falls Shotokan Karate at CSI for kids! Karate is an excellent way to help develop coordination, confidence, physical fitness, and mental strength while gaining valuable social skills. Shotokan Karate of America (SKA) has been teaching traditional Karate in the USA since 1955. Because of SKA's strong resolve to offer high-quality martial arts to the public, SKA has remained non-commercial and non-profit and continues to offer authentic, traditional martial arts instruction at affordable rates worldwide.

Ages 6-13 • June 1-August 31 • Tue & Th • 6-7 p.m. • \$80

Per the current recommendations of South Central District Health, we are requiring students, parents, and instructors to wear masks at all summer camps. Should those restrictions change between now and the summer, we will let you know, but please be prepared for that. To see all of the Covid-19 safety protocols in place for camps please go to www.csi.edu/communityed

ADULT CLASSES!

KARATE

Karate is an excellent way to help develop coordination, confidence, physical fitness, and mental strength while gaining valuable social skills.

May 31-Aug 30 • Mon & Wed 6-8 p.m. & Sat 9:30-11 a.m. • \$80

WELDING & METAL ART

Explore the technology of metal fabrication and welding to create a metal piece that will become something beautiful and durable... or just to brush up on your skills and work on a specific project or art piece!

June 16-Aug 25 • Thurs • 6-8:30 p.m. • \$250 + \$25 for gloves
